WORK EXPERIENCE

Frontend Web Developer
OZ TechWork
Nov 2025 - Present | Lahore

Description
- Built the live **Sialkot Stallionz** website from Figma using HTML & Tailwind CSS with pixel-perfect, fully responsive layouts.
- Added micro-interactions and optimized performance with lazy loading.
- Collaborated with WordPress and DevOps teams for integration and deployment.
- Developed the frontend of a MERN-based **HRMIS** with Admin and User dashboards.
- Implemented authentication, protected routes, Redux state management, API integration, and form validation.
- Built scalable UI modules for Employee Management, Leaves, Finance, Attendance, Meetings, and Announcements.

Frontend Web Developer
ICR
Mar 2025 - Jul 2025

Description
- Helped build simple web pages using HTML, CSS, and JavaScript as part of real projects during my learning phase.
- Built small React components to handle UI elements like buttons, forms, and lists.
- Followed Figma designs to create layouts that matched the visual structure of the project.
- Used React Router for basic page navigation within single page applications.
- Explored ways to improve loading performance by using lazy loading and image optimization techniques.
